

Virasept is a patented ready-to-use, "one-step", Detergent-Disinfectant, Bactericide Tuberculocide, and Fungicide that delivers effective cleaning, disinfecting and malodor control. The unique chemistry is formulated for use in daily maintenance programs and will not harm fixtures.

For use in Hospitals, Nursing Homes, Institutions, Schools, Daycare Centers, Restaurants, Food Service, Beverage and Food Processing Plants, Veterinary, Animal Housing and Industrial areas.

## For Isolation Rooms During An Outbreak Of Clostridium difficile

Effective against Clostridium difficile endospores after a 10 minute contact time.

# For Every Day Disinfection of High Touch Surfaces

Use on tables, chairs, countertops, bed rails, bathroom fixtures and sinks. Controls common pathogens in 4 minutes.

Bactericidal - Effective against Methicillin Resistant Staphylococcus aureus (MRSA), Vancomycin Intermediate Staphylococcus aureus (VISA), Vancomycin Resistant Enterococcus faecalis (VRE), Escherichia coli O157:H7, Pseudomonas aeruginosa, Klebsiella pneumoniae, Staphylococcus aureus, Salmonella choleraesuis, Serratia marcescens.

Effective against Norovirus, Avian Influenza A, Human Coronavirus (SARS), Influenza A Virus, Rhinovirus, Rotavirus, Respiratory Syncytial Virus, Adenovirus Type 4 in 4 minutes and Human Immunodeficiency Virus (HIV-1) in 30 seconds.

Use on contaminated surfaces such as such as chairs, bed rails, bathroom fixtures, sinks, carts, floors, walls, glazed tile, linoleum, vinyl, glazed porcelain, plastic, metal, stainless steel, chrome, glass, and painted or varnished surfaces.

FEATURE	BENEFIT
Fast kill times for most organisms	Assures label compliance and efficient use in a fast-paced hospital environments
Cleans, disinfects and deodorizes in one step	Helps save time, helps reduce inventory need
Apple fragrance	Pleasant scent for patients and staff
Broad spectrum disinfectant effective in 5% organic soil	Effective for institutional use even on surfaces with organic material

<sup>&</sup>quot;... cleaning and disinfecting environmental surfaces . . . is fundamental in reducing healthcare-associated infections."

Centers for Disease Control and Prevention. Guidelines for Environmental Infection Control in Health-care facilities: recommendation of CDC and the Healthcare Infection Control Practices Committee (HCPAC). MMWR 2003; 52 (No. 44-10): 1-48.

## **Directions For Use**

Virasept is effective against Clostridium difficile endospores after a 10 minute exposure time.

Surfaces must remain wet for the appropriate exposure time to achieve effectivness against the corresponding organisms.

Product must be reapplied as needed to keep surfaces thoroughly wet during the required exposure time. Remove solution with a mop, cloth, sponge, or vacuum pickup or allow to air dry. For heavily soiled areas, a pre-cleaning step is required.

#### DISINFECTION / CLEANING / DEODORIZING

For hospital disinfection, deodorizing and cleaning of hard non-porous surfaces according to the AOAC Use-Dilution Test, modified in the presence of 5% organic soil load. Apply Virasept with a coarse trigger sprayer, cloth, mop, brush, scrubber, or by soaking to thoroughly wet surface. Allow surface to remain wet for at least 10 minutes. Remove solution with a mop, cloth, sponge, or vacuum pickup or allow to air dry. For heavily soiled areas, a pre-cleaning step is required. Rinsing of non-food contact surfaces is not necessary.
