

Ecolab® FaciliPro™

FILL & CLEAN™

Series of Commercial-Grade Cleaners

Meet commercial-grade cleaning made easy. These proven and powerful products deliver the reliable cleaning performance of Ecolab in a unique refillable bottle that anyone can use anywhere — saving time, cost and waste.

FACILIPRO™

ECOLAB®

MEET THE INNOVATION THAT CHANGES EVERYTHING.

No dispenser
required —
can be filled
anywhere

The Fill & Clean™ Series

Simple, reliable commercial-grade cleaning with the ease of RTUs and cost and sustainability advantages of dispensed systems.

Each bottle generates approximately the equivalent of 16 32 oz. RTU bottles¹, saving space and reducing inventory complexity and reducing CO₂ emissions from less transport.

IT'S AS EASY AS: FILL. CLEAN. DONE.™

One-sentence training — “fill with water” — helps save onboarding and training time.

Fill

Fill the bottle's water reservoir from any available water source — no dispenser needed.

Clean

Spray to clean. Each pull of the trigger delivers properly diluted product.

Repeat

Keep refilling the water reservoir until the concentrated product reservoir is empty, then recycle.²

DESIGNED FOR SIMPLICITY

Auto-Shutoff Nozzle

Automatically stops spraying if water runs out.

Auto-Diluting Sprayer

Draws from each reservoir, delivering proper dilution with every spray.

Easy-to-Fill Water Reservoir

Features a twist-off cap so it can be refilled from anywhere, no dispenser required.

Supports Sustainability Goals

Bottle is recycled (50% PCR) and recyclable.²
Reduced CO₂ emissions vs. RTU, due to less transport.

Concentrate Reservoir

No need to open the concentrate reservoir — reducing the risk of chemical contact, misuse or overuse, and supporting safety and consistency.

COMMERCIAL GRADE. FOOLPROOF.

Six proven Ecolab products, all available in our refillable Fill & Clean bottle design for simple, consistent cleaning.

Fill & Clean™ Peroxide Multi- Surface Cleaner

Daily cleaner offers excellent cleaning and leaves a shine on a variety of hard surfaces.

6102908
2 - 14.37 oz

6102913
2 - 14.37 oz

Get started by calling **1-800-35-CLEAN** or visit **GoFaciliPro.com/Fill-and-Clean**

1. Based on internal testing showing the concentrate from one Fill & Clean bottle, when mixed with refilled water, will generate approximately the equivalent of 16 32 oz. bottles of ready-to-use product.

2. Bottle, not including sprayer, is #2 HDPE and contains 50% post-consumer recycled (PCR) plastic. Remove sprayer before recycling. Bottle may not be recyclable in all areas. Please check locally.
